

Sprint Review Report

Sprint: [Sprint 2] **Date:** [23 November 2025] **Product:** [Hospital Management System-HealSmart]

I. Sprint Goal Achievement and Completed Work:

○ 1.1 Sprint Goal Review:

- Sprint Goal Achieved:** [Yes]
- Achievement Details:** The development team successfully completed all user stories with their associated tasks. All core functionalities have been implemented and including: Insurance verification system, Payment processing with multiple methods, Lab results management, Employee and insurance company management

1.2 Completed Work Demonstration:

- The Development Team demonstrated the following completed Product Backlog items:**
- 1. Insurance verification**
- 2. Insurance response interface**
- 3. Automatic discount application,**
- 4. Lab results upload system**
- 5. Employee and insurance management**
- 6. Billing and payment reports**
- 7. Digital lab test requests**
- 8. Secure online payment**
- 9. Patient portal for prescriptions and lab results**
- 10. . Email marketing campaigns**
- 11.costumer service chat**

Key functionalities and features demonstrated: [Summary of key features shown through screenshots].

All functionalities of the system:

Sprint1 functionalities:

The image displays two screenshots of a web application titled "Hospital Management System".

The top screenshot shows the login page. It features a light blue background with a central heading "Welcome to Our Hospital" and a subtext "A unified platform for hospital management, connecting doctors, patients, and administrators seamlessly." Below this, there are three white buttons with blue icons: "Login as Admin" (monitor icon), "Login as Doctor" (stethoscope icon), and "Login as Patient" (person icon). The top navigation bar includes "Home", "Login", "About", and "Contact".

The bottom screenshot shows the "Create Patient Account" registration form. The form is centered on a light blue background. It has a heading "Create Patient Account" and a subtext "Sign up to manage your appointments." The form fields include: "Full Name *" (text input), "Email *" (text input), "Password *" (password input), "Confirm Password *" (password input), "Date of Birth *" (date picker with "mm/dd/yyyy" format), and "Contact Number *" (text input). A blue "Register" button is at the bottom of the form. Below the button, there is a link "Already have an account? Login". The top navigation bar is identical to the login page.

When are my lab results ready?9:15 AMactive

John DoePatient ID: user_1Mark as Resolved

I need help with my appointment10:30 AM

Can I reschedule it to next week?10:31 AM

- **Any questions from stakeholders were addressed during the demonstration.**
- **Can the system support multiple insurance companies?**
- Answer: Yes, the hospital manager can easily add and manage any number of insurance companies through the admin panel

1.3 Acceptance Criteria Verification:

- **Verification of Acceptance Criteria:** All acceptance criteria were met for each demonstrated item. Each user story was tested and validated against its defined acceptance criteria. No deviations or unresolved issues were identified.

II. Product Increment and Stakeholder Feedback:

2.1 Product Increment Discussion:

- **Current State of Product Increment:** The product increment includes a fully functional hospital management system with 11 major features providing end-to-end functionality for insurance verification, payment processing, lab management, administrative functions, and patient engagement.
- **Alignment with Product Goal:** The increment aligns perfectly with the product goal of digitizing hospital operations and improving patient experience. All core workflows have been automated and integrated.
- **Value to Users/Customers:**
- **Patients:** Streamlined insurance verification, secure online payments, easy access to health information.
- **Hospital Staff:** Efficient operational tools, automated reporting, better customer support capabilities.].

2.2 Stakeholder Feedback:

- **Key Feedback Received:**
Usability: Intuitive UI and smooth navigation across all modules. **Functionality:** Insurance verification praised for speed and accuracy
- **Next Steps Based on Feedback:** Minor UI refinements added to backlog

2.3 Product Backlog Review:

- **Product Backlog Adjustments:** Minor enhancements and UI improvements added based on stakeholder feedback.
- **Newly Discovered Work:** Additional reporting features with data visualization

III. Progress and Next Sprint Planning:

3.1 Progress Toward Product Goal:

- **Contribution to Product Goal:** This sprint delivered all core functionalities. The hospital now has a complete digital management system ready for deployment and testing.
- **Impediments:** No major impediments encountered.

3.2 Next Sprint Planning Preview:

- **Potential Items for Next Sprint:** Mobile app prototype, Additional security features

3.3 Action Items:

- **Action Items:**
 - 1. Roaa to prepare UI refinement specifications by 25 November 2025.
 - 2. Joud to document payment gateway integration by 27 November 2025.
 - 3. Sumaiya to create API integration technical documentation by 28 November 2025.
 - 4. Bushra to conduct code review session by 27 November 2025.

IV. Summary and Closing:

4.1 Summary of Key Takeaways:

- **Key Takeaways:** Sprint highly successful with all user stories completed. Team demonstrated excellent collaboration and technical execution.
- **Team Accomplishments:** The team completed 150 hours of development work efficiently and delivered high-quality features.

4.2 Next Steps:

Thank You: Thank you to all attendees (Roaa, Joud, Sumaiya, Bushra) for their participation in this sprint review.

Next Sprint Planning: Next sprint planning session will be held on [1Dec 2025] at [10:00 AM].
