Product Vision Statement

1. Write the Vision Statement

- **Product Name:** Hospital management system
- **For:** Doctor, Patient, Nurse, Administrator, Pharmacist
- **Who:** Need one single and efficient system to drive hospital operations, patient data, and communication within a hospital.
- **The SHMS is a** comprehensive hospital management system that unifies all departments onto one platform.
- **That** simplifies day-to-day hospital activities, reduces paperwork, improves interdepartmental coordination, and enables better patient care by providing accurate and timely information flow.
- **Unlike** traditional paper or stand-alone systems that cause delays, data loss, and mistakes.
- **Our** product transforms healthcare administration by providing a smart, simple, and fully integrated setting that enhances hospital efficiency, accuracy, and patient satisfaction.

2. Summary of the Product:

The Smart Hospital Management System (SHMS) is an end to end integrated system that is aimed at enhancing hospital efficiency and patient treatment. It consolidates on a daily basis the operations of the hospital from appointment scheduling, patient history, billing, prescriptions, laboratory results, and staff management into one system.

3. Stakeholders:

Internal Stakeholders:

- Hospital Administrators
- Doctors
- Nurses
- Pharmacists: inventory
- Accountants
- IT/Development Team

External Stakeholders:

- Patients
- Insurance Companies
- Health Authorities

4. Team Members (Key Roles):

Product Owner: Sumaiya

Scrum Master: Joud

Development Team Member: Roaa

Development Team Member: Bushra
